Field Trip to Rayalseema University to the Dept. of Telugu,21-01-2023

The Department of Telugu Organized College Level MEGA FIELD TRIP On 21-01-2023 with 27 Degree Students and 5 Staff members.

Guest Lecture Programme

26-04-2022

The Guest Lecture programme is conducted on 26-04-2022 by the department of Telugu on the subject matter globalization, the importance of Telugu language and its cultural richness in language in connection with world language as main speaker of the programme as Guest lecturer Smt. Gandam Aruna, Assistant Professor of Telugu department of Rayalaseema University, Kurnool addressed the gathering emphasizing to keep up one's mother tongue particularly Telugu language which is recognized as the Italian of the east for its rich heritage and culture in getting employment and tie-up with other world languages.

Field Trip to Rayalseema University to the Dept. of Telugu,23-01-2023

వ్యక్తిత్వ వికాసంతో గుర్తింపు

కర్నూలు(విద్యా విభాగం), స్కూల్ టుడే: వ్యక్తిత్వ వికాసంతో ప్రైవేట్ గా ముందుకెళ్లిన వ్యక్తి సమాజంలో గుర్తింపు లభిస్తుందని ప్రెస్సిపల్ ఇందిరాకాంతి పేర్కొన్నారు. నగరంలోని కేవీఆర్ మహిళా డిగ్రీ కళాశాలలో ఋషి వారు వ్యక్తిత్వ వికాసం అనే అంశంపై అవగాహన సదస్సు నిర్వహించారు. ముఖ్య అతిథిగా హాజరైన తెలుగు ఆచార్యులు దాతార్ ఎం. అన్నర్ హా సేక్ మాట్లాడారు.

మాట్లాడుతున్న ప్రెసిపల్ ఇందిరాకాంతి

విద్యార్థులంతా నిరంతరం వ్యవస్థపడి చదివి జీవి తాన్ని బంగారు బాటగా మార్చుకోవాల్సి వున్నారని, కార్యక్రమంలో డాక్టర్ సమన్వయకర్త డి.నాగేశ్వరి, నియామకాల అధికారి మహబూబ్ బాషా, అధ్యాపక బృందం పాల్గొన్నారు.

International Mother Language Day Programme

The Department of Computer Science and The Department of Computer Applications jointly organised a National level webinar on the topic “Evolution of Computers” on the occasion of World Computers Literacy Day from 10:00 A.M. to 1:00 P.M. The resource persons were:

1. Dr M.Shanmugam, Pondichary University, 2. Dr Ch Venkata Rami Reddy , VIT UNIVERSITY, 3.Yakobu Dasari,VFSTR University, 4.Shaik Nagur Shaik, Software Engineer, Hyd, 5.Y.Sreenivasulu, PSC&KVSC Nandyal. The main purpose of conducting this webinar is to create awareness among the students about how the computers have evolved and became a part of our lives with new technologies.

Student Participation in Drama in Lalita Kala Samithi,Kurnool (02-10-2022)

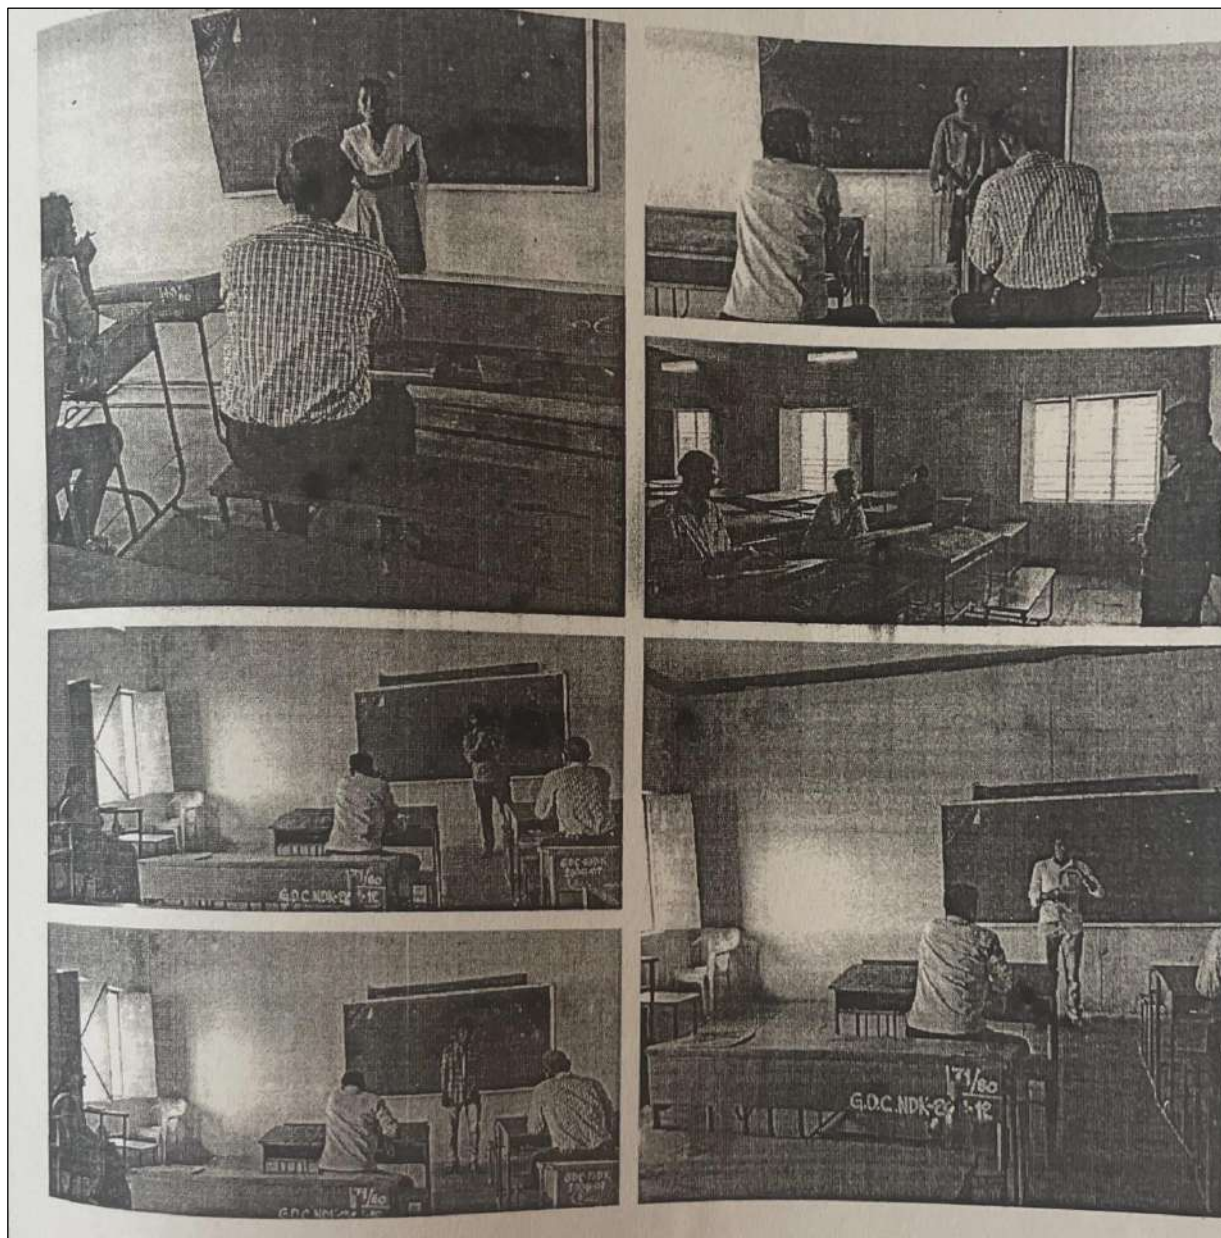

Our student S.MADDILETY B.A.HEP 2019-2020 batch has Participated as one of the Play actor in the Drama named "PALERU" in the Lalitha Kala Samiti programme. Also students of our college trained for cultural activities like folk dances , mime shows and dramas.

Elocution & Essay Writing Competition in view of Consumer Day 2021

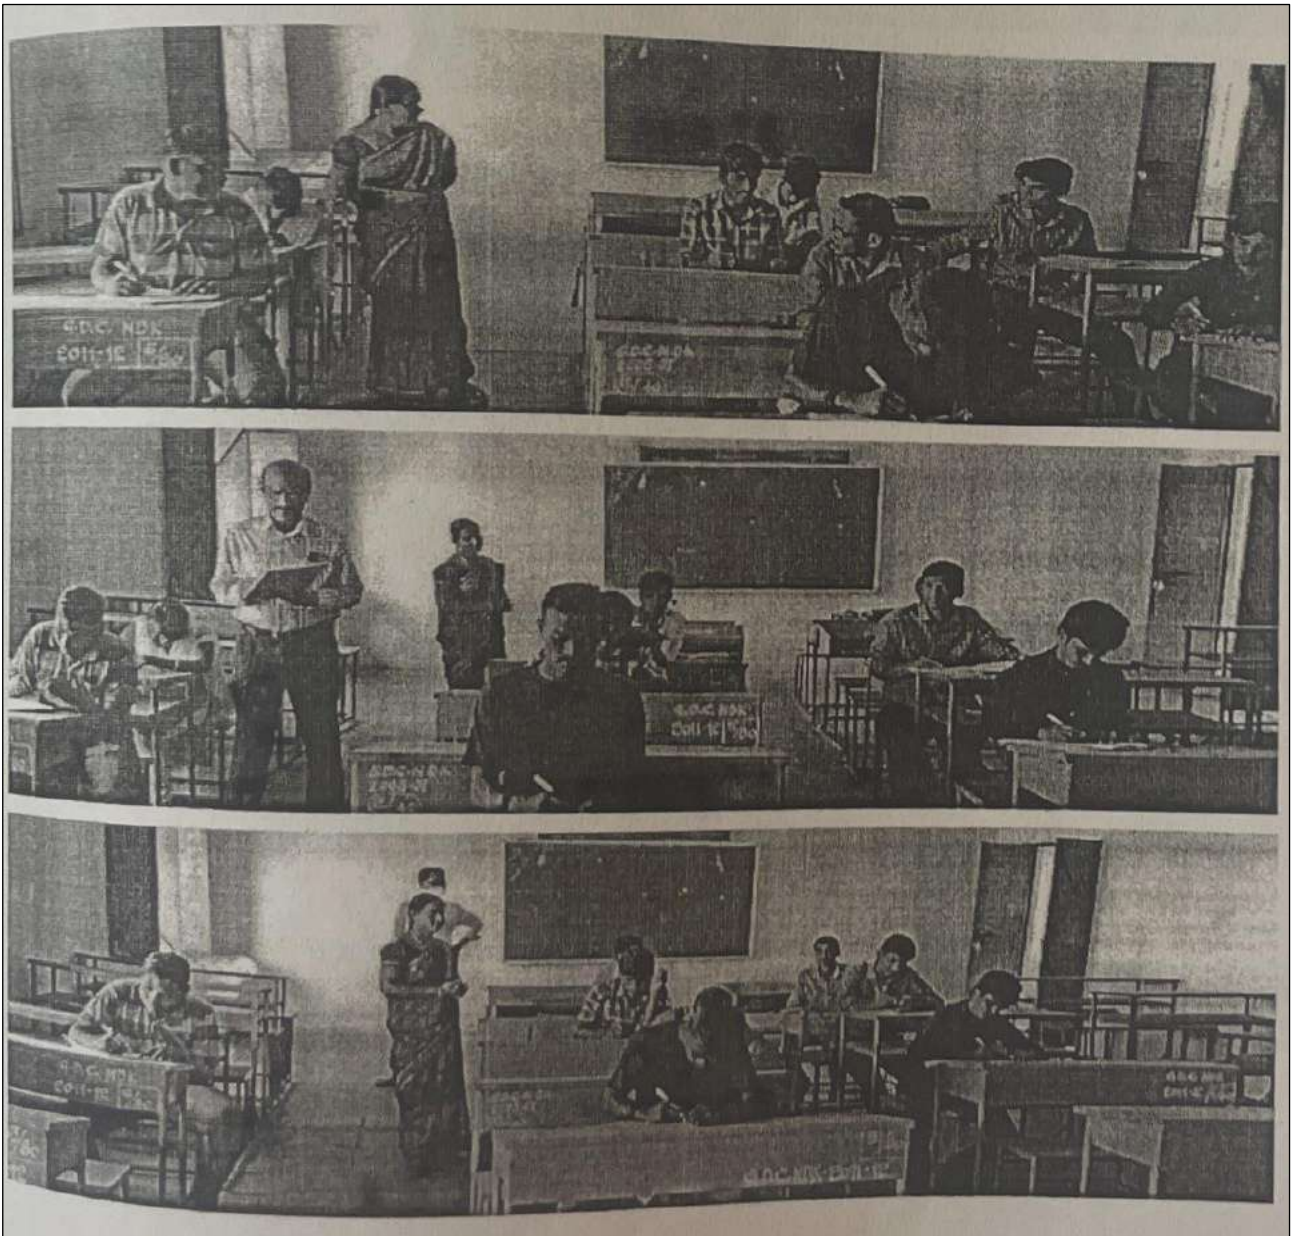

Elocution Competition in view of Consumer Day 2021

Students actively participated in the elocution competition and got awareness on the need and importance of consumer awareness among the students

Essay Writing Competition in view of Consumer Day 2021

Students actively participated in the Essay Writing Competition and got awareness on the need and importance of consumer awareness among the students

Rally on Consumer's Day

NAME OF THE EVENT : Rally in view of Consumer Day 2022

DATE : 21-12-2022

OBJECTIVES : To create awareness on Consumer Rights and Consumer & Protection to the General public

NO. OF PARTICIPANTS : 30

OUTCOMES : General public have got awareness on Consumer Rights

**Formation of Consumer Club in collaboration with Dept of Commerce, Govt. Degree
College for Men, Kurnool**

CONSUMER CLUB

About the Consumer Club

Consumer Club was started in Government Degree College, Nandikotkur with the aim to bring awareness among the students and rural people about the rights of the consumer and the protection of consumer rights.

OBJECTIVES OF CONSUMER CLUB

- To bring awareness and realization among students and the rural people about their rights as consumers as provided in consumer protection Act, 1986.
- To motivate the students to question violations of consumer rights and fight for justice.
- To create awareness to the students and the rural people about the mechanism of redressal of consumer grievances.

CONSUMERS CLUB COMMITTEE

S. No	Name & Designation of the Staff Member	POSITION
1.	K.Venkata Reddy, Lecturer in Commerce	CONVENER
2.	Sri. K. Rangamuni, Lecturer in Commerce	External Member
3.	Dr.S.Mohana Murali ,Lecturer in Commerce	MEMBER
4.	Dr. M. Amaravathi, Lecturer in Commerce	MEMBER
5.	Smt. Lakshmid devi, , Lecturer in Economics	MEMBER
6.	Ms. Nirmala, III B. Com	STUDENT MEMBER
7.	Ms. Sadaf, II BZC	STUDENT MEMBER

Observation of National Consumer Day 2022

NAME OF THE EVENT : Observation of National Consumer Day 2022

DATE : 23-12-2022

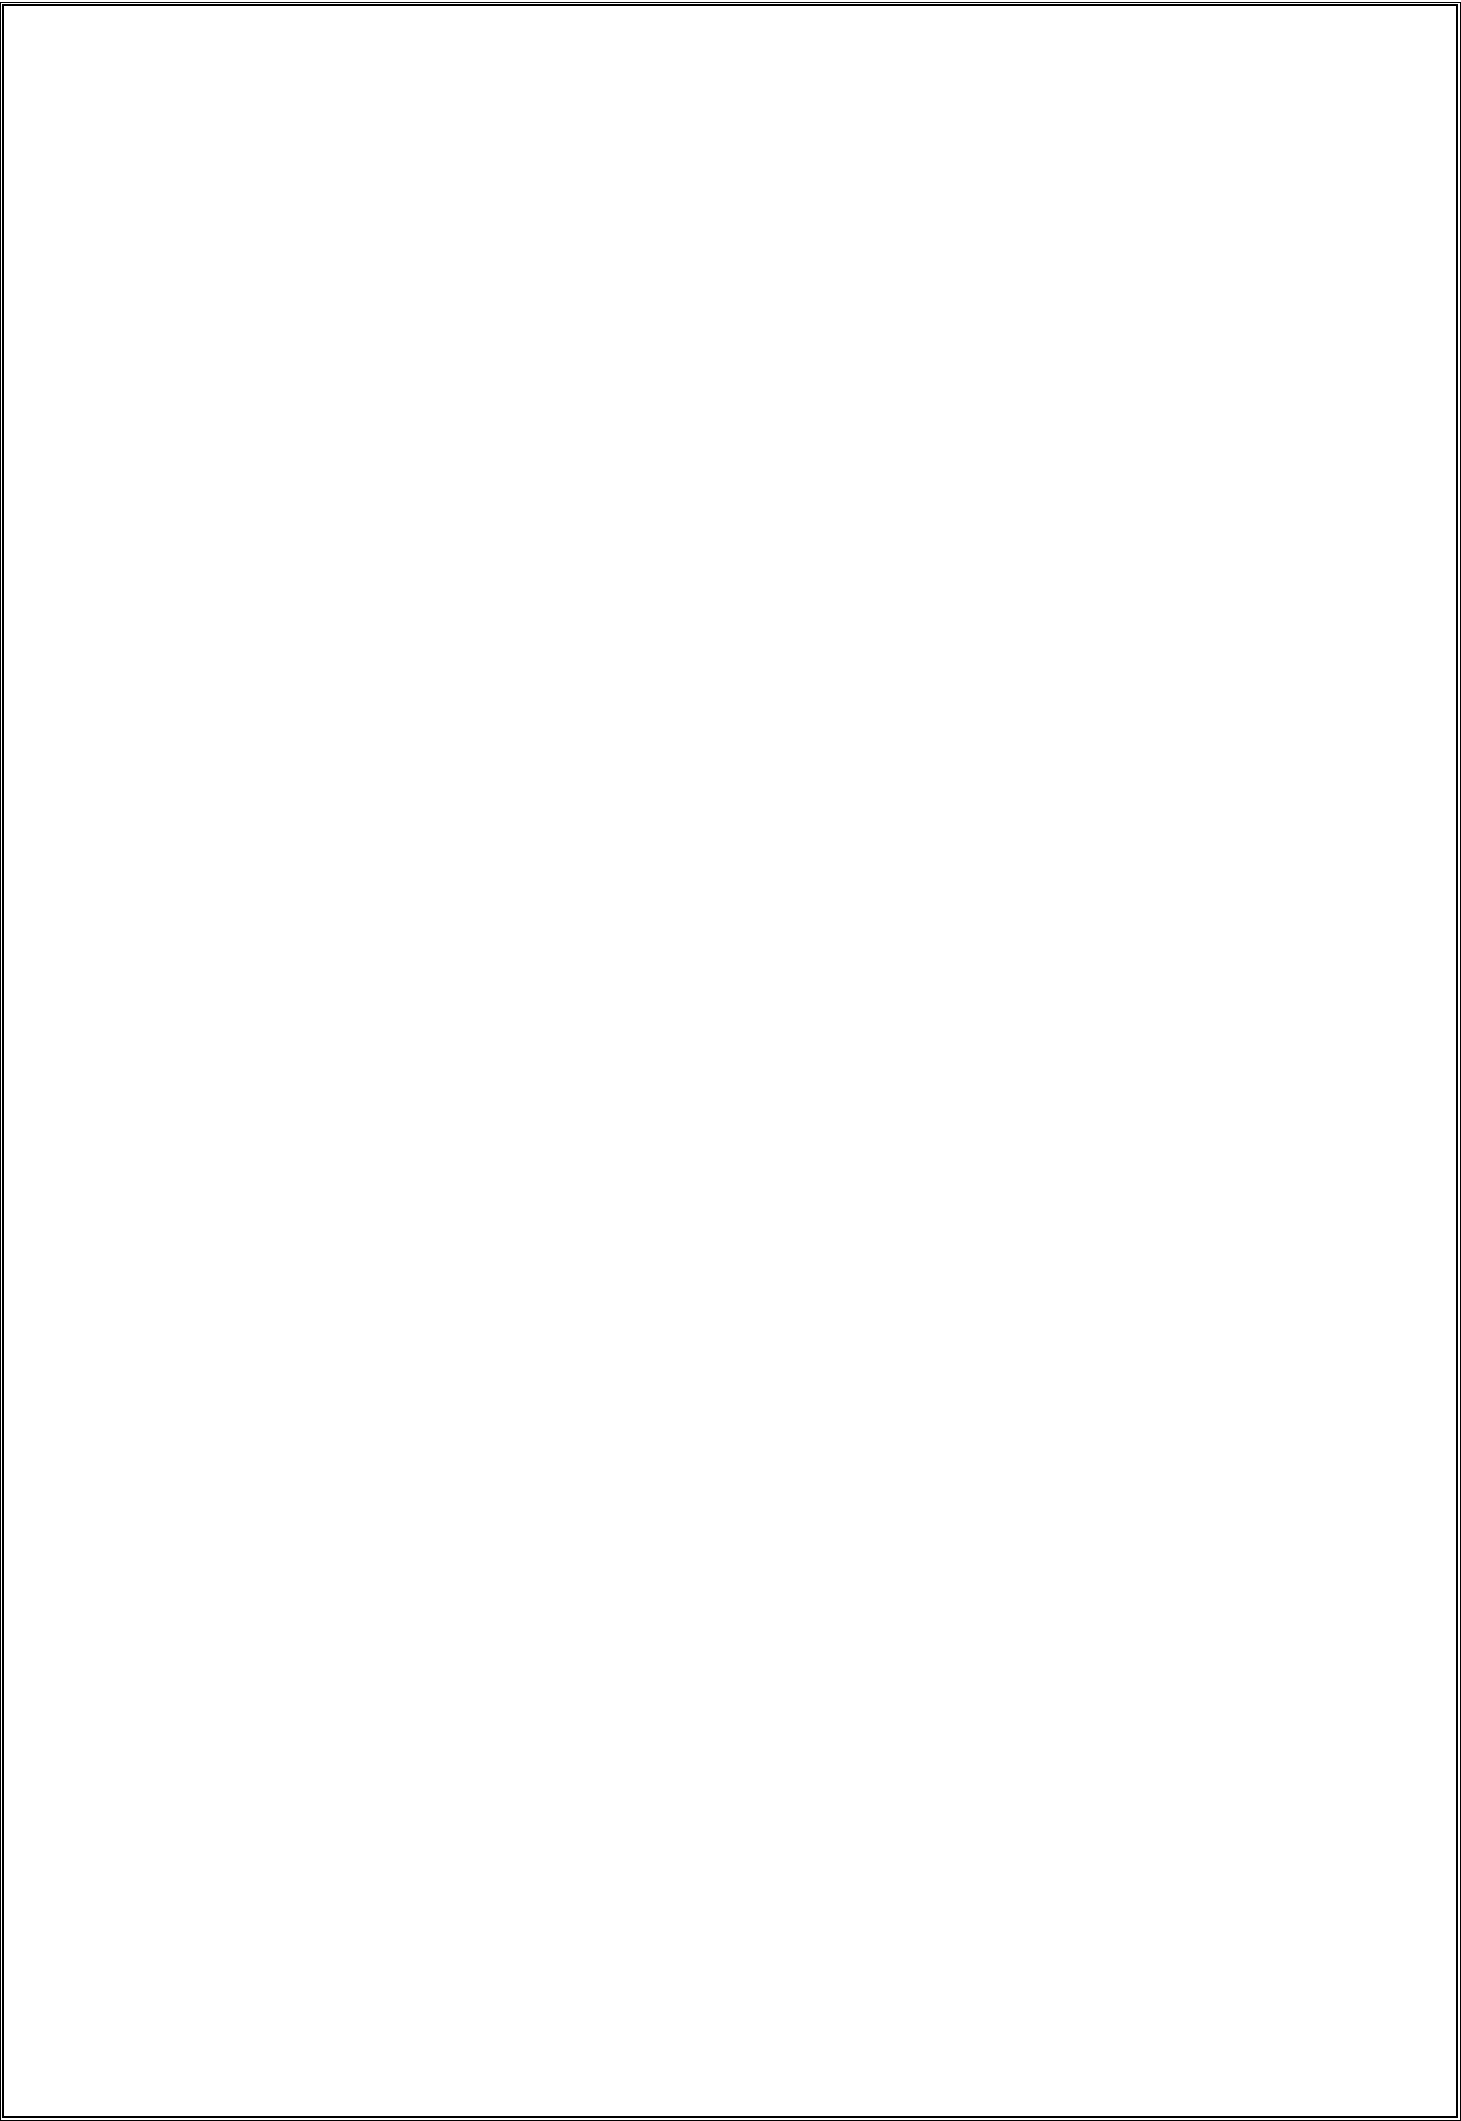

RESOURCE PERSON: Sri Syed Ameer Basha , President, Consumer Protection and Sri. N. Suresh Kumar, Advocate

OBJECTIVES : To create awareness on Consumer Rights and Consumer

PARTICIPANTS : 45

OUTCOMES : Students gained knowledge on Consumer Rights

Student Exchange Programme
With
Govt. Degree College for Men, Kurnool

B.Com (CA) Students Listening Seminar on “Cooperate Accounting” at Govt. Degree College for Men, Kurnool, 19-09-2022

National Mathematics Day 22-12-2022

The Department of Mathematics has organized a Guest Lecture on the topic "Srinivasa Ramanujan and his contribution in Mathematics". Sri.Dasthagiri, Lecturer in Mathematics of PSC & KVSC Govt. Degree College, Nandyal Dist has given the lecture.

Field Trip to Greenko Solar Plant

16-02-2023

Department of Physics, Government Degree College, Nandikotkur organised an industrial visit with three years MPCS students to Greenko Solar plant in Ghani, Nandyal district on 16-02-2023. A batch of 12 students accompanied 2 faculty members started their journey to explore the knowledge on renewable energy and made the memorandum of understanding (MOU) with Greenko solar plant management.

This power plant consists of thousands of solar panels distributed over a vast area of land 5932 acres. The total power generated by this solar plant is 50 MW. The solar energy here is converted into electrical energy. This visit is very useful to the students to acquire the practical knowledge on solar energy

PHYTOSOCIOLOGICAL ATTRIBUTES OF CLIMBER SPECIES IN NALLAMALAIS, INDIA.

T. Shalishaheb,¹S. Khadar Basha and ¹A. Narayana Swamy

¹Associate Professor of Botany, Govt. Degree College, Nandikotkur, Affiliated to Rayalaseema University, Kurnool District, Andhra Pradesh

²Assistant Professor of Botany, S.M.L. Govt. Degree College, Yemmiganoor, Affiliated to Rayalaseema University, Kurnool District, Andhra Pradesh

³Assistant Professor of Botany, S.T.S.N. Govt. Degree College, Kadiri, Affiliated to Sri Krishnadevaraya University, Sri Sathya Sai District, Andhra Pradesh.

Abstract: Nallamalais is one of the Centres of Plant Diversity sites in India which encompasses various lifeforms. Of which Climbers are one of the most neglected. Phytosociological attributes were used to know the status of climber species. The total number of individuals of climbers reported in the study area was 319 of which *Gymnema sylvestre* as the most important species followed by *Asparagus racemosus* and *Cajanus scarabaeoides*. The lowest IVI value (1.91) was observed in six species including *Aspidoteris cordata*.

Key words: Nallamalais, CPD site, Climber species, IVI, *Gymnema sylvestre*.

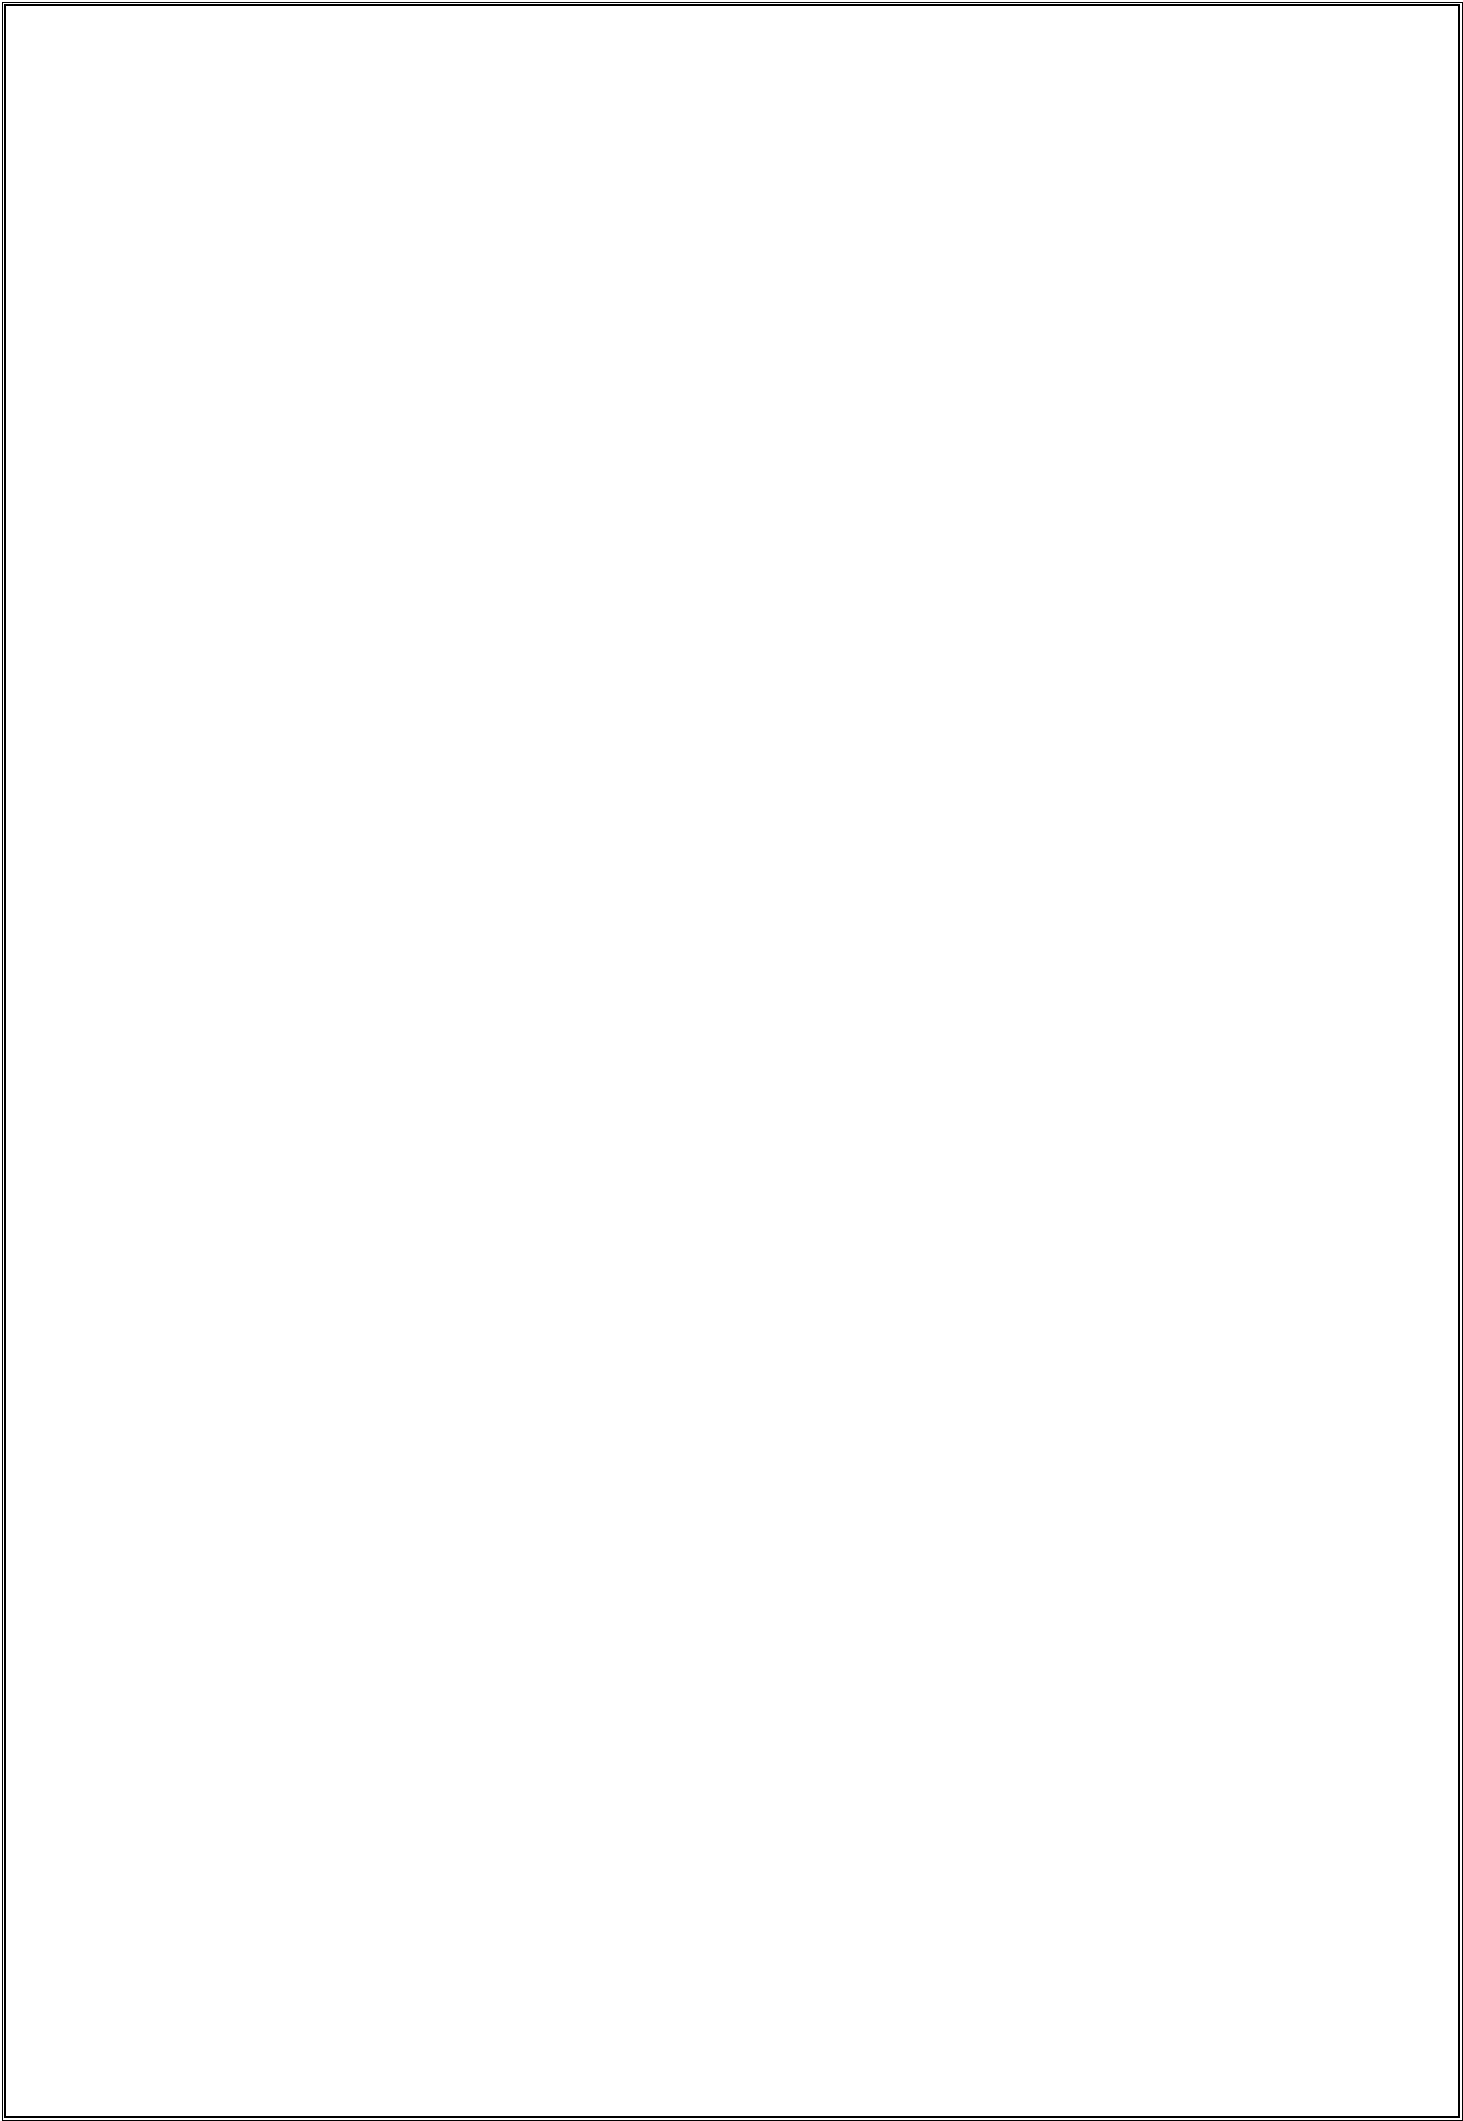

INTRODUCTION

Biodiversity is essential for human and economic well-being and for the ecosystem function and stability. Forests can release the stored carbon as CO₂ that form nearly 17-25% of the total greenhouse gas emissions, at the same time forest conservation, afforestation, reforestation and sustainable forest management can curb about 25% emissions. Biodiversity interacting with the physical environment form the foundation of sustainable development. Biodiversity resources, mapping their geographical distribution and quantitative estimation of their natural stands is perhaps the most important information needed for any country in the post-CBD era. The worldwide destruction of the natural environment by population explosion, urbanization, industrialization and habitat fragmentation has led to a tremendous loss of biological diversity over the past few decades and hence warrants immediate attention especially on forestry sector as they harbor amazing biodiversity and has critical role on global climate change scenario.

World's forests extended over 4 billion hectares, corresponding to 31 percent of the total land area or an average of 0.6 ha per capita (FAO, 2020) has become a critical part of the international climate change agenda. Tropical forests in India comprising over 60% deciduous forests are poorly understood in terms of phytodiversity, phytosociology and quantification regimes. Analysis of the quantitative relationship among the plant species growing in an area reflects structural property of the community. Phytosociological investigation of vegetation serves as a pre-requisite for investigating the details of primary productivity of ecosystems.

In peninsular India, quantitative phytodiversity inventories are available from the forests of the Western Ghats, whereas study on Eastern Ghats is lacking. The wide range of topography, varied climate favours luxurious growth of vegetation and forest. It remain as a neglected area with very few attempts made for such studies in Eastern Ghats of Tamil Nadu (Kadavul and Parthasarathy, 1999a & b; Chittibabu and Parasarathy, 2000). Hence, the present study was undertaken to determine the structural and floristic composition of climber diversity in Nallamalais. The study area for the present work is considered as one of the significant biodiversity rich areas in Southern Eastern Ghats. Nallamalais one of the Centres of Plant Diversity (CPD) in India. It represents diversified habitats and supports a wide array of plant and animal life and provides basic livelihood for tribal and rural communities. Kumar & Bhanja (1992) produced a seed manual for forest trees of Andhra Pradesh. Sandhya rani & Pullaiah (2002) reported 560 tree taxa from eastern Ghats. Suryanarayana et al., (2002) inventoried the plant wealth of Veligonda hill ranges and reported 1004 species belonging to 558 genera and 149 families. Studies on plant resources include Ellis (1982, 1987, 1990), Reddy et al., (1998), Pullaiah et al., (2007), Thualsi Rao et al., (2007), Reddy et al., (2007), Raju and Pullaiah (1995) surveyed the Flora of Kurnool district and reported 1064 species of which 208 are trees covering 194 from Nallamalais of Kurnool district. Pullaiah and Sandhya Rani (1999) made the floristic studies on trees of Andhra Pradesh and reported 531 tree species covering over 200 trees of Nallamalais.

While working on Flora of Andhra Pradesh, Pullaiah and Chennaiah (1997), Pullaiah and Ali Moulali (1997), Pullaiah (1997) and Pullaiah and Karuppusamy (2008) reported 2601 species, of which 531 are trees, Sunitha (2002) surveyed the sacred groves of Kurnool district and reported 138 tree taxa, of which 119 are from Nallamalais. She made over 100 additions of the Nallamalais after Raju & Pullaiah (1995) of which 18 are trees. Shali Saheb (2008) studies the medicinal plants of Nallamalais and reported 501 taxa of which 137 are trees. Khadar Basha (2009) was studied quantitative assessment of Nallamalais and reported 249 tree species. Most of the studies have followed the plot methods including square plots of 100x100m (Gentry, 1988); 10x10m (shalishaheb, 2008) to rectangular plots 10x10m by Boom (1986). Shah Hussain et al., (2008) describes the species composition. Shali Saheb (2008) analysed the medicinal plant diversity in three one-hectare plots through ten quadrants of 10x10m and recorded 135 species belonging to 110 genera 45 families. Khadar Basha (2009) recorded a total of 249 tree species from 175 grids comprising 237 species belonging to 139 genera and 54 families.

Guest Lecture by Dr,Meer Altaf Ahmed, Lecturer in Chemistry

Dr,Meer Altaf Ahmed, Lecturer in Chemistry of Silver Jubilee Govt. Degree College, Kurnool has given a guest lecture on "Applications of Polymer " to the students of B.Sc(BZC) on 05-05-2022.

Awareness Programme on Dental Health

Guest Lecture on “Role of World Bank in the World”

Dr.R.Raghupathi Reddy, Lecturer in Political Science, 25-03-2022

On the invitation of the Principal, Silver Jubilee Govt. Degree College, Kurnool, AP, Dr. R.Raghupathi Reddy, Lecturer in Political Science of Government Degree College, Nandikotkur delivered lecture on **Role of World Bank in the World**.

Field Trip to show Flora and Fauna , Grassland Habitat including Great Indian Bustard is a majestic bir

Personality Development & Career Counseling Programme

A Career Guidance and Personality Development program was conducted in the seminar hall on the 27th of October 2023 at 10:30 AM. The event was graced by the presence of Dr. R. Suneetha, the principal of our college, who presided over the program, and Dr. M. Anwar Hussain, a Reader in Telugu, who served as the Convener of the event. Syed C. Saleem Basha, an esteemed personality development trainer, and Sri Raja Shaker, a renowned career guidance counsellor from Kurnool, were the distinguished resource persons.

The resource persons eloquently shared their valuable insights with the audience. Dr. S. Thajoddin, the IQAC Coordinator, and Dr. B. Parimala Devi, the NAAC coordinator, along with all the dedicated staff and enthusiastic students, graced the occasion with their presence.

In a gesture of appreciation, shawls were presented to the resource persons, and biscuit packets were distributed to the students. The program concluded with a heartfelt rendition of the National Anthem.
